A MESSAGE FROM THE FOUNDER

Welcome to a Partnership Built on Purity, Precision and Promise

**Dear Valued Buyer,**

Thank you for taking the time to consider **Holy Spices** as a sourcing partner for your global spice and seasoning requirements. India produces some of the most aromatic, oil-rich and colour-intense spices on earth — yet quality at the buyer's port is decided by what happens long before loading: the field chosen, the moisture at harvest, the cleaning passes, the lab tests, the bag selected and the way the container is stuffed. We have built our entire enterprise around getting every one of those steps right.

Based in **Vadodara, Gujarat** — strategically positioned between the cumin & psyllium husk-growing belts of Unjha and the chilli & turmeric corridors of South India — we operate a tightly controlled supply chain from Farm to FCL. Every consignment that leaves our facility carries **lab-verified moisture, sortex-grade purity, and adulteration-free certification**. We do not chase volume; **WE BUILD TRUST**. That is why a majority of our buyers re-order within their next purchase cycle.

In this catalog you will find our complete export portfolio, full technical specifications, our quality control workflow, certifications, packing matrix, and a clear order process — everything you need to evaluate us as a serious long-term partner. If a single specification on the following pages can be matched and verified, we are confident we can earn your first trial order.

We invite you to **request a free sample**, ask any technical question. Your success is the only metric that matters to us.

With warm regards,

KUNAL GANDHI
Founder
The Holy Spices

Vadodara, Gujarat, India

ABOUT HOLY SPICES

Where Indian Origins Meet Global Standards

WHO WE ARE

At **Holy Spices**, we stand as a trusted link between India's fertile agricultural heartlands and the extracting requirements of the global food and manufacturing industries. Rooted in integrity and driven by state-of-the-art export compliance, we are built on a single core promise: delivering **unadulterated, highly potent, and perfectly graded** agricultural commodities directly to your port of destination. We treat spices not merely as trade goods, but as a rich heritage of **Flavor, Aroma, and Wellness** that must be preserved perfectly from the field to the final delivery.

WHAT WE ARE INVOLVED IN

- **Direct Farm-Level Sourcing.** Partnering closely with growers across specialized agricultural zones — the cumin & psyllium husk belts of Unjha & Jodhpur, turmeric corridors of Nizamabad and Salem, chilli zones of Guntur, fennel fields of Gujarat — to secure the finest raw harvests at peak season.
- **Advanced Multi-Stage Processing.** We proudly affiliated with Facilities who does mechanical cleaning, de-stoning, gravity separation, magnetic ferrous removal, and high-resolution Sortex color sorting to guarantee maximum purity, low ash and zero foreign matter.
- **Custom Commercial Packaging.** Offering flexible bulk and institutional packing in PP, jute, multi-layer paper options — designed to survive extreme maritime transit conditions while preserving essential volatile oils.
- **Global Trade Logistics & Compliance.** Managing seamless international supply chains, secure container stuffing, fumigation, phyto-sanitary certification, and meticulous trade documentation under global standard frameworks (FSSAI, Spices Board, APEDA, IEC, Global Food Safety Standards).

OUR MISSION

Bringing India's authentic, safety-certified spices to the global stage.

OUR VISION

Pure Indian spices. Absolute consistency. Trusted by premium global brands.

PREMIUM EXPORT PORTFOLIO

Six Flagship Indian Agro-Commodities and More...

Leveraging an extensive farm-level backward integration framework and elite processing partnerships, Holy Spices can also operate beyond our core portfolio to seamlessly arrange, grade and supply the entire spectrum of premium Indian spices, oilseeds, pulses, and allied agricultural commodities. From custom physical milling to precise microbiological stabilization, our agile trade infrastructure is engineered to deliver any volume tailored strictly to your destination country's regulatory and import parameters.

Cumin Seeds

Jeera

Gujarat & Rajasthan

KEY GRADE 99–99.5% Sortex	FCL LOAD 14–15 MT / 20ft

Psyllium Husk

Isabgol

Gujarat — Unjha hub

KEY GRADE 95–99% purity	FCL LOAD 10–12 MT / 20ft
-----------------------------------	------------------------------------

PRODUCT SPECIFICATIONS — PART 1

Cumin Seeds & Turmeric

01 Cumin Seeds · *Indian: Jeera* · Comino (Spanish) · Cumin (French) · Kreuzkümmel (German) · Kamun (Arabic)

SOURCING & QUALITY

Sourced from sun-drenched **Gujarat (Unjha mandi belt)** and **Rajasthan (Jodhpur, Nagaur, Merta)** — climates that naturally maximize essential oil concentration and aroma intensity. Multi-tier mechanical cleaning + Sortex sorting delivers uniform, highly aromatic seeds compliant with EU, USA, ME and Far East entry laws.

INDUSTRIAL APPLICATIONS

- **Industrial Food Production:** flavor anchor in seasoning blends, instant masala mixes, processed meats, chili powder, curry powder, taco seasoning lines.
- **Therapeutic & Medicinal:** nutraceutical formulations rich in thymol — aids digestion, supports iron levels, combats bloating in wellness products.
- **Essential Oil Extraction:** cold-pressed or steam-distilled cuminaldehyde-rich oils for luxury fragrance, aromatherapy and concentrated food flavoring sectors.

PURITY	99% Min (Machine) · 99.5% Min (Sortex Premium)	MICROBIAL	Salmonella / E.coli absent in 25g
MOISTURE	Max 7.0% – 8.0%	AFLATOXIN	EU 1881/2006 & USFDA compliant
VOLATILE OIL	1.5% – 2.5% min	SHELF LIFE	24 months sealed packing
ADMIXTURE	Max 0.5% – 1.0%		

■ **LOGISTICS & PACKAGING** 25 / 50 kg multi-layer PP, paper sacks or jute bags with food-grade liner. **14–15 MT per 20ft FCL.** FOB Mundra / JNPT or CIF buyer's port.

02 Turmeric Fingers & Powder · *Indian: Haldi* · Cúrcuma (Spanish) · Curcuma (French) · Kurkuma (German / Russian)

SOURCING & QUALITY

Selected from **Nizamabad (Telangana)**, **Salem (Tamil Nadu)** and **Alleppey (Kerala)**. Naturally bright Beldi golden hue — **never artificially enhanced**. Single or double polished options, strictly free of artificial colouring or lead chromate; optimized for global extraction lines, nutraceutical processors and ethnic retail brands.

INDUSTRIAL APPLICATIONS

- **Pharma & Nutraceutical:** source of curcumin — antioxidant & anti-inflammatory compound for joint-care, immunity and wellness capsules.
- **Natural Food Colour:** clean-label golden-yellow dye in dairy, baking, confectionery, mustard sauces and snacks — replacing synthetic E102 / E110.
- **Wellness & Cosmetics:** premium skin-care, soap-making and Ayurvedic herbal cosmetic formulations — visibly reduces acne & topical inflammation.
- **Culinary:** curries, golden milk lattes, broths, marinades and ethnic seasoning blends — bridging Indian heritage with global wellness food movement.

CURCUMIN	2.5% (Nizamabad) · 3.5% (Salem) · 5.0%+ (Alleppey)	DEFECTIVE FINGERS	Max 2.0%
MOISTURE	Max 9.0% – 10.0%	POLISHING	Single · Double · Unpolished (on request)
LEAD CHROMATE	Strictly Negative · 100% adulteration free	FORM	Whole Fingers · Bulbs · Powder (mesh customizable)
TOTAL ASH	Max 7.0% / AIA Max 1.0%		

■ **LOGISTICS & PACKAGING** 50 kg woven PP or jute bags with food-grade poly liner. **18–20 MT / 20ft · 28 MT / 40ft FCL.** Origin-belt traceability available.

PRODUCT SPECIFICATIONS — PART 2

Fennel Seeds & Red Chilli

03 Fennel Seeds · *Indian: Saunf* · Hinojo (Spanish) · Fenouil (French) · Fenchel (German) · Shumar (Arabic)

SOURCING & QUALITY

Sourced from **Gujarat micro-climates — Unjha, Mehsana, Sidhpur** — globally renowned for bold seed size with an intensely sweet flavour profile. Modern aspiration channels and precision sifters eliminate empty husks, field straw and dust, yielding a beautifully uniform greenish-yellow batch.

INDUSTRIAL APPLICATIONS

- **Confectionery & Mukhwas:** sugar-coated sweet fennel, candy lines, sweet-pastry baking and post-meal digestive blends sold across South Asia & Middle East.
- **Herbal Tea & Wellness:** core in botanical digestive teas, mother's milk lactation teas, post-natal recovery formulas, anise-flavored herbal infusions.
- **Beverages & Liquor:** premium gin botanical mixes, absinthe, sambuca, herbal liqueurs and spiced cordials worldwide.
- **Bakery & Sausage:** Italian sausage seasoning, sourdough rye breads, fennel cookies and Mediterranean meat preparations.

PURITY	98% Min (Machine) · 99.5% Min (Premium Sortex)	SEED SIZE	5 – 8 mm bold seed grade
MOISTURE	Max 9.0% – 10.0%	EXTRANEIOUS MATTER	Max 1.0%
VOLATILE OIL	1.0% – 2.0% min	FORMS	Whole · Polished · Ground
COLOUR	Light-green to greenish-yellow, uniform		

■ **LOGISTICS & PACKAGING** 25 kg multi-wall paper sacks or high-strength woven PP bags. **13–14 MT per 20ft FCL.** Vacuum-pack or nitrogen-flushed cartons on request.

04 Red Chilli · *Indian: Lal Mirch* · Chile (Spanish) · Piment (French) · Chili (German) · Peperoncino (Italian)

SOURCING & QUALITY

Highly vibrant, shelf-stable whole chillies & ground powders from India's most celebrated red soil zones — **Guntur (Andhra Pradesh)** for Teja and Sannam, **Byadgi (Karnataka)** for deep crimson, low-heat colour chillies. Every shipment monitored for consistent ASTA colour values, capsaicin content and moisture stability.

INDUSTRIAL APPLICATIONS

- **Hot Sauce & Snack Coatings:** Sriracha-style sauces, Mexican salsas, chili oils, chips/nuts/popcorn seasoning lines worldwide.
- **Oleoresin & Capsanthin Extraction:** natural capsanthin pigment for poultry feed, lipstick, ham coloring, processed cheese — replacing synthetic dyes.
- **Curry Bases & Seasonings:** curry powders, tandoori masala, peri-peri seasoning, kimchi gochugaru substitute, ethnic frozen-food production.
- **Pharmaceutical:** capsaicin extracts used in topical pain-relief creams, arthritis ointments and modern medical research formulations.

VARIETIES	Teja S17 · Sannam S4 · Byadgi DBD / KDL · 334 Wonder Hot	AFLATOXIN / OCHRATOXIN	EU 1881/2006 & destination port compliant
PUNGENCY	15,000 – 85,000+ SHU (custom-selected by batch)	BROKEN / DAMAGED	Max 2.0% · Microbial: Salmonella absent
COLOUR VALUE	60 ASTA – 140+ ASTA (variety based)	FORMS	Whole Stem-on · Stemless · Crushed · Powder
MOISTURE	Max 10.0% – 11.0%		

■ **LOGISTICS & PACKAGING** 20 / 25 kg new gunny jute bags or ventilated PP bags. **7–9 MT / 20ft FCL whole · 14 MT / 20ft powder grades.**

PRODUCT SPECIFICATIONS — PART 3

Dry Ginger & Psyllium Husk

05 Dry Ginger · *Indian: Sonth / Sookhi Adrak* · Jengibre (Spanish) · Gingembre (French) · Ingwer (German) · Zanjabeel (Arabic)

SOURCING & QUALITY

Sourced from choice agricultural estates of **Kerala (Cochin variety), Karnataka and the North-East (Sikkim)**. Thoroughly washed, sun-dried and graded into sulfur-treated or fully natural non-sulfur varieties per destination country requirements. The resulting rhizomes grind into ultra-fine, fiber-controlled powder.

INDUSTRIAL APPLICATIONS

- **Beverage Industry:** crucial pungent component for craft ginger ale, ginger beer, kombucha and herbal cocktail bitters.
- **Bakery & Confectionery:** indispensable for ginger cookies, gingerbread, festive holiday cakes, crystallized ginger candy and Asian dessert lines.
- **Traditional Restorative Teas:** herbal cold-relief teas, immunity blends, Ayurvedic kadha mixes and global wellness tisanes.
- **Pharmaceutical & Oleoresin:** source of gingerol and shogaol — extracted for anti-nausea medication, motion-sickness pills, digestive aid formulations.

APPEARANCE	Clean, pale-ivory to light-tan dried irregular rhizomes	SULFUR TREATMENT	Bleached white OR Non-sulfur natural
MOISTURE	Max 10.0% – 12.0%	FORMS	Whole rhizomes · Splits · Slices · Fine powder
VOLATILE OIL	1.5% min	MICROBIAL / AFLATOXIN	Lab tested · globally import-compliant
EXTRANEIOUS MATTER	Max 1.0%		

■ **LOGISTICS & PACKAGING** 25 kg woven PP bags or breathable new jute bags. **12–14 MT per 20ft FCL**. Whole & powder grades with separate packing.

06 Psyllium Husk · *Indian: Isabgol* · Ispágula (Spanish) · Psyllium (French) · Flohsamenschalen (German) · Bazr Qatuna (Arabic)

SOURCING & QUALITY

Sourced from **Unjha, Gujarat — the global hub for psyllium production**. Carefully separated husk with high purity grades for pharmaceutical, dietary fibre and gluten-free bakery applications. 95% / 98% / 99% purity grades available in 30 / 40 / 60 mesh for ingredient houses and supplement manufacturers worldwide.

INDUSTRIAL APPLICATIONS

- **Pharmaceutical:** active bulk laxative ingredient in major global health brands and over-the-counter fibre products.
- **Dietary Fibre Supplements:** high-fibre capsules, drink powders, functional food additives — the gold standard for soluble fibre.
- **Gluten-Free Bakery:** binding agent in breads, biscuits, vegan baking blends — essential for texture in gluten-free formulations.
- **Nutraceutical & Ayurveda:** cholesterol management, gut health, weight management products, traditional Ayurvedic gastrointestinal formulations.

PURITY GRADES	95% · 98% · 99% available	LIGHT EXTRANEIOUS MATTER	Max 0.5% – 1.0%
MOISTURE	Max 10.0% – 12.0%	MICROBIAL / AFLATOXIN	Pharma-grade lab compliant
MESH SIZE	30 / 40 / 60 mesh (customizable)	ORIGIN	Unjha mandi, Gujarat — world's isabgol hub
COLOUR	Light ivory to creamy white, uniform		

■ **LOGISTICS & PACKAGING** 25 kg multi-wall paper sacks or woven PP with food-grade liner. **10–12 MT per 20ft FCL**. Vacuum-flushed cartons available for pharma buyers.

QUALITY CONTROL & CERTIFICATIONS

From Soil to Storage/FCL Container — Nine Verification Stages

Quality is not a final test — it is built into every stage of our process. Below is the exact 9-stage workflow every consignment moves through before it is approved for export under the Holy Spices seal.

<p>01 Farm Selection</p> <p>Contracted farmer clusters in proven agronomic belts. Variety, soil type and harvest window pre-agreed.</p>	<p>02 Harvest & Intake</p> <p>Moisture-checked at intake gate. Lot-numbered, source-tagged and stored separately.</p>	<p>03 Pre-Cleaning</p> <p>Coarse trash, stones, sticks, ferrous metal and oversized field debris removed.</p>
<p>04 De-Stoner / Gravity</p> <p>Density-based separation removes mud-balls, pebbles and heavier impurities.</p>	<p>05 Aspiration</p> <p>Air-aspiration channels lift out husks, dust and lighter foreign matter.</p>	<p>06 Sortex Colour Sort</p> <p>High-resolution color cameras eject any discolored or defective seeds at speed.</p>
<p>07 Lab Testing</p> <p>Moisture, ash, volatile oil, aflatoxin, microbial, pesticide residue, heavy metals.</p>	<p>08 Precision Packing</p> <p>Food-grade liner + outer bag, weight-verified, batch-coded, fumigated.</p>	<p>09 Container Stuffing</p> <p>Desiccant, kraft paper floor, vent-block configuration, photo documentation, e-seal.</p>

■ **FULL COA SUPPLIED** Every consignment is dispatched with a complete Certificate of Analysis, Phyto-sanitary certificate, fumigation certificate, Spices Board certificate and Certificate of Origin.

REGULATORY CERTIFICATIONS

 <p>SPICES BOARD</p> <p>Ministry of Commerce & Industry</p>	 <p>APEDA</p> <p>Agri-Products Export Authority</p>	 <p>FSSAI</p> <p>Food Safety License</p>	 <p>IEC</p> <p>Import Export Code (DGFT)</p>	 <p>MSME</p> <p>Udyam Registered</p>
---	---	--	--	--

Additional documentation supported on request: Phyto-sanitary Certificate · Certificate of Origin · Fumigation Certificate · Health / Free Sale Certificate · Halal · Kosher · NPOP / USDA-NOP / EU Organic · Third-Party Pre-Shipment Inspection.

WHY CHOOSE HOLY SPICES

Ten Reasons Buyers Commit to Long-Term Partnerships

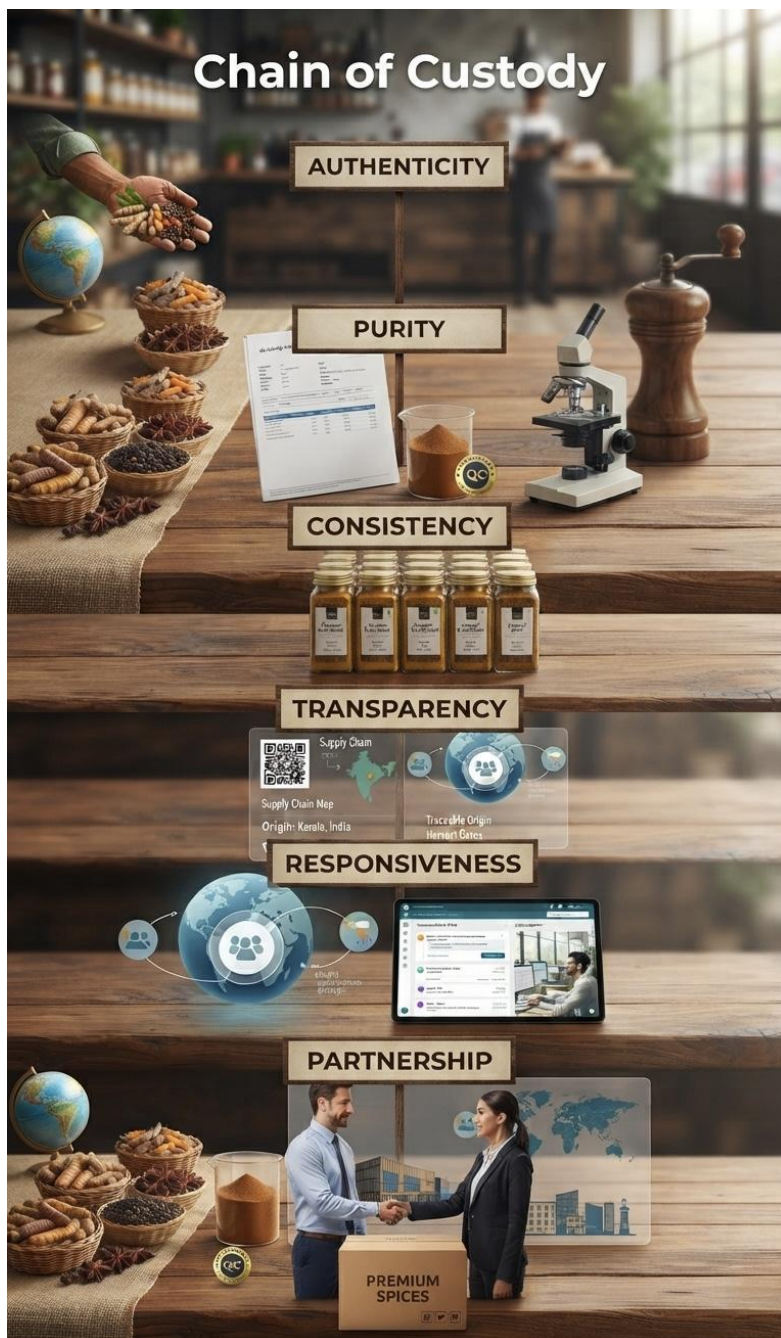

Choosing a spice supplier from India means choosing between hundreds of options. Holy Spices stands apart on the parameters that actually determine landed quality, profit margin and re-order safety for serious global buyers:

- 01 Professionally run Establishment**
At Holy Spice, professional governance and rigorous operational standards back every shipment we make. We combine the soul of Indian agriculture with a highly structured, corporate-grade export process.
- 02 Direct Farm-Level Sourcing**
Procured straight from contracted farmer clusters at peak harvest — fresher crop, lower moisture, sharper landed price.
- 03 Advanced Sortex & Multi-Stage Processing**
High-resolution color sorters, gravity separators, destoners, magnetic ferrous traps and aspiration channels — each batch passes through 5 to 7 sequential purification stages before bagging.
- 04 Strict Adulteration-Free Promise**
Negative on lead chromate, synthetic dye and starch bulking. COA, phyto & fumigation certificates with every consignment.
- 05 Lab-Verified Microbial & Aflatoxin Safety**
All consignments tested for Salmonella, E. coli, total plate count, yeast/mould, aflatoxin and ochratoxin — compliant with EU, USFDA, FSSAI, JFSL and GCC import limits.
- 06 Ocean-Ready Premium Packaging**
Heavy-duty woven PP, jute, multi-wall paper and food-grade liners — engineered to resist container sweat, mold growth and humidity damage even on 45+ day transit lanes.
- 07 Full Export Documentation Handled**
Phyto-sanitary certificate, Certificate of Origin, Spices Board certificate, COA, Bill of Lading, Insurance — everything packaged and couriered before vessel arrival.
- 08 Flexible MOQ & Trial Orders Welcome**
We accept LCL trial orders from new buyers (starting 500 kg) and scale to multi-container FCL programs once mutual trust is established. No buyer is too small to start with.
- 09 Responsive Support in Your Timezone**
Dedicated export executive responds within 4 working hours. WhatsApp / email / phone — quick turn-around on quotes, sample dispatch, shipment tracking and post-shipment queries.
- 10 To Nature for Nature: Incentives to Farmers, encourage**
Driven by a 'Nature for Nature' philosophy, we financially incentivize and empower farmers to adopt sustainable cultivation. By investing directly in our growers, Holy Spice secures a resilient, eco-friendly supply chain for the global market.

THE HOLY Spices PROMISE

*We do not sell spices. We sell **peace of mind** — for every food processor, every nutraceutical brand, every retail buyer who needs to be absolutely certain that what arrives at their port matches what was agreed in the contract. Every batch we dispatch is one we would be willing to consume in our own homes. That is the only standard we know how to operate by."*

<p>◆ AUTHENTICITY Single-origin traceability on every batch</p>	<p>◆ PURITY 100% adulteration-free · lab certified</p>
<p>◆ CONSISTENCY Same spec in your 1st & 100th container</p>	<p>◆ TRANSPARENCY Open COA · open lab reports · open mind</p>
<p>◆ RESPONSIVENESS All inquiries answered within 4 hours</p>	<p>◆ LONG-TERM PARTNERSHIP Built for repeat orders, not one-shots</p>

LET'S START A CONVERSATION

Sample Today. Container Tomorrow.

FREE SAMPLE POLICY

Evaluate before you commit

We offer complimentary samples up to **200 g per SKU** to verified business buyers — you cover only international courier (DHL / FedEx / Aramex). Samples dispatched within **48 working hours** with full Certificate of Analysis. Larger evaluation lots (1–5 kg) available at nominal cost. Sample cost is fully refunded against a confirmed order placed within 60 days.

SIMPLE 6-STEP ORDER PROCESS

01 INQUIRY Send product, quantity, target spec and destination port. Quote in 24 working hours.	02 SAMPLE EVALUATION 200 g per SKU dispatched within 48 hours via DHL / FedEx, with full COA.	03 PRICE & TERMS LOCK Pro-forma invoice with FOB / CFR / CIF pricing, packing, lead-time.
04 PAYMENT INSTRUMENT L/C opened OR advance T/T received per agreed terms. Production begins.	05 PRODUCTION & QC Procurement, processing, lab testing, packing, third-party inspection.	06 DISPATCH & DOCS Container loaded, B/L issued, full export documents couriered. Vessel sails.
